Walasmulla, Sri Lanka

Professional Summary

Highly motivated and detail-oriented Full-Stack Developer with strong knowledge of modern web technologies. Experienced in building efficient, scalable, and user-friendly applications using JavaScript, Java, and React. Passionate about learning, collaborating, and solving real-world problems through clean code and innovative design.

Work Experience

Sri Lanka Ports Authority

Colombo, Sri Lanka

Software Engineering Intern – Information Systems Division

2026/01/09 – 2026/07/08

- Contributed to the development, feature implementation, and access control testing for a specialized Discipline Module inside the Electronic Document Digitisation System (EDDS).
- Focused primarily on backend development using Spring Boot and MySQL databases, while seamlessly connecting the front-end interface built with AngularJS, HTML/CSS, and TypeScript.
- Collaborated in an Agile environment and Daily Stand-ups while actively participating in version testing, quality assurance, and cross-layer milestone communication.

Core Competencies

Languages: JavaScript, Java

Front-End: HTML, CSS, React, Angular

Version Control: Git, GitHub

Other: API Integration, Agile/Scrum

Back-End: Node.js, Spring Boot

Databases: MySQL, MongoDB

Platform: Linux

Soft Skills: Problem Solving, Teamwork

Selected Projects

AQUALINK – Marketing Platform for Ornamental Fish Industry

- Digitized Sri Lanka's ornamental fish industry by creating a comprehensive platform that connects fish farms, shops, and delivery services, allowing seamless communication, efficient trading, real-time inventory tracking, and safer, faster deliveries, ultimately improving operational efficiency and reducing losses for all stakeholders.
- Technologies:** React.js, Spring Boot, MySQL

Area51 – Clothing Website

- Built for Methunlanka Pvt Ltd, Area51 is an end-to-end online clothing platform that allows customers to browse, filter, and purchase products seamlessly, while giving admins the ability to manage inventory, orders, and users efficiently, ensuring a smooth shopping experience and improved operational workflows.
- Technologies:** React.js, Node.js, MongoDB

Certifications

- Python Programming – University of Moratuwa
- Front-End Web Development – University of Moratuwa
- Web Design for Beginners – University of Moratuwa

Education

H/Walasmulla National School

G.C.E. Advanced Level (2021) – Physical Science Stream
Mathematics (B), Physics (C), Chemistry (C)

Institute of Technology, University of Moratuwa

Higher National Diploma in Information Technology
Ongoing
